The nurse who practices with a specialty in developmental disabilities:

- Contributes significantly to the services provided to individuals with a developmental disability with respect for the uniqueness of the individual and human dignity;
- Accepts responsibility for developing expertise in developmental disabilities nursing practice through self-development and continuing education;
- Recognizes the rights of individuals with a developmental disability, acts as an advocate, and strives to ensure that the rights are protected;
- Promotes and maintains a safe environment which enhances the physical, emotional, and spiritual well-being of the individual;
- Maintains confidentiality at all levels in accordance with professional standards of practice, agency guidelines and state and federal law;
- Makes contributions from the nursing perspective, while recognizing the collaborative nature and unique role of the interdisciplinary team in providing quality services for individuals with developmental disabilities;
- Commits to making contributions to the development of innovative ideas for nursing practice in the field of developmental disabilities;
- Serves as a resource to prepare other team members, including direct support professionals, to provide quality health supports to people with developmental disabilities.

.....

I am aware of my professional responsibility to maintain appropriate behavior. I agree to strive to abide by the above code of ethics while providing nursing services to individuals with developmental disabilities.
